ABOUT THE PROJECT

PROJECT NAME
COMBATHATE (Combating Hate Speech and Hate Crimes Against Individuals with Mental Disabilities)

PROJECT NUMBER
101205522

EU PROGRAMME
Citizens, Equality, Rights and Values (CERV)

WHY THIS PROJECT?
Individuals with mental disabilities frequently face hate speech and hate crimes that undermine their dignity, safety, and well-being. COMBATHATE seeks to address this challenge by developing tailored support systems, raising public awareness, and strengthening cooperation between civil society and public authorities (including law enforcement).

Executive Summary

Deliverable **D2.2 – Support System Development Report** presents the complete set of psychological, legal and practical support tools developed within **WP2 of the COMBATHATE project**. The Support System is designed to respond to the needs identified through the transnational Needs Assessment and aims to facilitate **accessible reporting, emotional support, evidence collection and guidance through legal procedures** for people with mental and intellectual disabilities who experience hate speech or hate crimes.

The Support System includes seven core components: a Psychological First Aid (PFA) Card, an icon-based Incident Reporting Form with proxy option, an Evidence Bundle Kit, Legal Flowcharts, Template Letters, national Help Maps, and a Digital Wizard prototype. All tools were developed using a **user-centred and accessibility-oriented approach**, with materials produced in English, Italian, Bulgarian and Estonian, and Easy-to-Read versions where applicable.

Testing and validation were carried out through **simulated scenarios and role-play exercises**, involving approximately nine participants across partner organisations. Feedback from these sessions was used to refine wording, layout, and usability. The Digital Wizard is provided as a prototype via an online link and documented through screenshots.

This deliverable constitutes a **public, reusable support framework** for victims, families, guardians, social workers and frontline professionals, and provides the foundation for the training activities and piloting foreseen in subsequent work packages.

---

1. Introduction

The COMBATHATE project addresses hate speech and hate crimes targeting people with mental and intellectual disabilities. Within this framework, **Work Package 2 (WP2)** focuses on the development of **concrete support mechanisms** that can be used in real-life situations by victims, families, guardians and support professionals.

Deliverable D2.2 responds to this objective by presenting a structured Support System that translates research findings and identified needs into **practical, accessible and legally meaningful tools**. The deliverable is public and intended for wide dissemination and reuse.

---

2. Scope and Objectives of Deliverable D2.2

The scope of D2.2 is to document the **design, development, testing and final structure** of the COMBATHATE Support System.

Specific objectives are to:

- Provide **immediate emotional support guidance** following incidents of hate speech or hate crime.
- Enable **accessible and supported reporting**, including proxy reporting when necessary.
- Support the **collection and organisation of evidence**.
- Offer **clear guidance on legal pathways and options**.
- Facilitate **contact with relevant local services**.
- Introduce a **digital reporting prototype** aligned with accessibility principles.

---

3. Methodology

3.1 Needs-based design

All tools included in the Support System were developed based on the findings of the transnational Needs Assessment carried out in the first phase of the project. The Needs Assessment highlighted significant barriers to reporting, including complex procedures, lack of accessible formats, fear of not being taken seriously, and limited awareness of available services.

3.2 Co-design and development

Partners worked collaboratively, each leading specific components of the Support System, while ensuring coherence across tools. Accessibility, simplicity, and usability were prioritised throughout the development process.

3.3 Testing and validation

Due to the absence of real-life cases during the development period, testing was conducted through **simulated scenarios and role-play exercises**, involving approximately nine users (support staff and partner representatives). These simulations allowed partners to:

- test clarity and comprehension,
- assess usability of icons and layouts,
- verify logical flow of steps,
- identify necessary adjustments.

Feedback from these sessions informed **minor refinements to wording, structure and visual presentation**.

---

4. Overview of the COMBATHATE Support System

The Support System consists of the following tools:

Tool	Purpose	Format	Languages
PFA Card	Immediate emotional support guidance	PDF (A3 / A6)	EN, IT, BG, EE
Icon Form + Proxy	Accessible incident reporting	PDF	EN, IT, BG, EE
Evidence Bundle Kit	Evidence collection and organisation	PDF	EN, IT, BG, EE
Legal Flowcharts	Legal pathways and options	PDF	EN, IT, BG, EE
Template Letters	Formal and simplified reporting	PDF	EN, IT, BG, EE
Help Maps	Local support services	PDF	BG, IT, EE (+ E2R EE)
Digital Wizard	Guided digital reporting prototype	PDF + Link	EN

Each tool is described in detail in the annexes attached to this report.

---

5. Accessibility and Inclusion

Accessibility principles were applied across all tools, including:

- use of simple language,
- clear layouts and large fonts,
- icons supporting textual content,
- Easy-to-Read versions where relevant,
- allowance for assisted or proxy completion.

The Support System is designed to be usable both independently and with the support of a guardian or professional.

---

6. Digital Wizard Prototype

The Digital Wizard translates the icon-based reporting logic into a **mobile-friendly, step-by-step digital journey**. It guides the user through four core questions (WHO, WHAT, WHERE, WHEN) using icons and short labels. The tool allows partial information, includes a consent mechanism for proxy reporting, and offers an optional notes field.

The Digital Wizard is provided as a **prototype** and is accessible via the following link, also recorded in SYGMA:

https://thunkable.site/w/A588rWsedTbGEnmUwRnuE

Screenshots illustrating the user journey are included in **Annex G**.

---

7. Conclusions

Deliverable D2.2 provides a **comprehensive, accessible and tested Support System** that responds directly to the needs identified in the COMBATHATE Needs Assessment. The tools developed under WP2 form the operational backbone of the project and will be piloted and further refined through training and implementation activities in subsequent work packages.

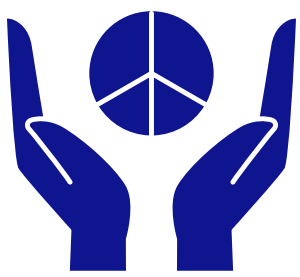
1 БЕЗОПАСНОСТ

Намерете тихо място, намалете шума, осигурете безопасност.
„Тук съм, за да помогна.
Искаш ли тихо място или да седнеш?“

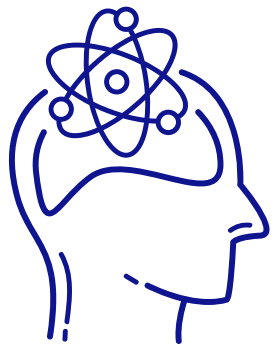
2 УСПОКОЯВАНЕ

Използвайте техники (5-4-3-2-1) или бавно дишане.
„Нека дишаме заедно една минута.“



3 СЕТИВНА ПОДКРЕПА

Предложете антифони, намалете светлината, ограничете стресовите стимули.
„Можем да направим това пространство по-спокойно за теб.“



4 СВЪРЗВАНЕ

Идентифицирайте и се свържете с доверен човек — със съгласие.
„Искаш ли да се обадим на някого, на когото имаш доверие?“

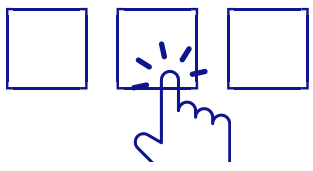
5 НУЖДА

Покажете икони за избор (медицинска помощ, правна помощ, подкрепа, да се прибере у дома).
„Можеш да избереш това, което ти се струва най-подходящо.“

- Медицинска помощ
- Правна помощ
- Подкрепа
- Отиване вкъщи

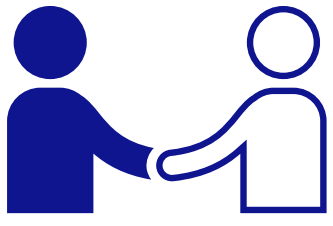
6 ВЪЗМОЖНОСТИ

Обяснете правата с прост език, покажете „карта за помощ“ (Help-Map).
„Ето услугите, които могат да те подкрепят.“



7 ДЕЙСТВИЕ

Топъл трансфер: обадете се заедно, запазете час за последваща подкрепа.
„Можем да се обадим на линията за подкрепа заедно сега.“



8 ПРОСЛЕДЯВАНЕ

Обобщете, дайте контактна информация, планирайте следваща проверка.

📝 1. ОПИСАНИЕ НА ИНЦИДЕНТА

🕒 Дата:
📍 Място:
💬 Какво се е случило?

📷 2. ВИЗУАЛНИ ДОКАЗАТЕЛСТВА

☐ Снимки на мястото, където се е случил инцидентът
☐ Снимки на наранявания, повредени предмети или предмети
☐ Снимки на екрана на коментари, съобщения, публикации, изпълнени с омраза
☐ Снимки на екрана на потребителски имена, профили, времеви отпечатъци
☐ Снимки на екрана на изтрито съдържание (ако е възстановено)

Пример: Снимка на екрана от Facebook, показваща съобщението „Луд си, стой си вкъщи!“, изпратено до жертвата.

🎧3. АУДИО/ВИДЕО ДОКАЗАТЕЛСТВА

☐ Видеозаписи от телефон
☐ Гласови съобщения (Messenger, Viber, WhatsApp)
☐ Всякакви аудиозаписи, на които се чуват обидни или заплашителни думи
☐ Запис от видеонаблюдение (ако има такъв)

Пример: Гласов запис, на който лицето казва „Вие, хора с умствени увреждания, не трябва да сте навън.“

👀4. ИНФОРМАЦИЯ ЗА СВИДЕТЕЛИ

☐ Имена на свидетели
☐ Телефонен номер или имейл
☐ Кратко описание на видяното
☐ Дали са готови да свидетелстват

Пример: Съсед: „Видях как нападателят го блъска и крещи обиди.“

🏥 5. МЕДИЦИНСКА ИНФОРМАЦИЯ

☐ Лекарски доклад
☐ Снимки, направени от медицински персонал
☐ Болнични документи, диагностични бележки
☐ Бележки за въздействие върху психичното здраве

Пример: Медицинска бележка, в която се посочват синини по ръката на жертвата.

💙6. ЕМОЦИОНАЛНО ВЪЗДЕЙСТВИЕ

☐ Как се чувства човекът след инцидента

📁 TÕENDITE KOGUMISKOMPLEKT

I. KONTROLLNIMEKIRI — Milliseid tõendeid peaksin koguma?

📝 1. JUHTUMI KIRJELDUS

🕑 Kuupäev:

📍 Asukoht:

💬 Mis juhtus?

📷 2. VISUAALSED TÕENDID

☐ Pildid kohast, kus juhtum aset leidis

☐ Pildid vigastustest, kahjustatud esemetest või osalejatest

☐ Ekraanipildid vihkavatest kommentaaridest, sõnumitest, postitustest

☐ Ekraanipildid kasutajanimedest, profiilidest, kuupäevadest ja kellaajadest

☐ Ekraanipildid kustutatud sisust (kui on taastatud)

Näide: Facebooki ekraanipilt, kus ohvrile saadeti sõnum: „Sa oled hull, jää koju!“

🎧 3. HELI-/VIDEO TÕENDID

☐ Telefonivideod

☐ Häälsõnumid (Messenger, Viber, WhatsApp)

☐ Kõik helisalvestised, kus kuuldakse solvavaid või ähvardavaid sõnu

☐ Valvekaamera salvestised (kui saadaval)

Näide: Häälsalvestis, kus isik ütleb: „Te vaimselt puuetega inimesed ei tohiks väljas olla.“

👀 4. TUNNISTAJATE ANDMED

☐ Tunnistajate nimed

☐ Telefoninumber või e-post

☐ Lühike kirjeldus sellest, mida nad nägid

☐ Kas nad on valmis tunnistama

Näide: Naaber: „Ma nägin, kuidas ründaja teda lükkas ja solvanguid karjus.“

🏥 5. MEDITSIINIANDMED

☐ Arsti raport

☐ Meditsiinipersonali tehtud fotod

☐ Haigla dokumendid, diagnoosid

☐ Märkmed vaimse tervise mõju kohta

Näide: Meditsiiniline märge, mis kirjeldab ohvri käsivarte verevalumeid.

💙 6. EMOTSIONAALNE MÕJU

☐ Kuidas ohver end pärast juhtumit tunneb

☐ Käitumismuutused (hirm, taganemine, ärevus)

☐ Uued raskused (uni, teatud kohtadest hoidumine)

Näide: „Ma kardan pärast juhtumit üksi välja minna.“

II. JUHISED — Kuidas seda tõendite komplekti kasutada

- Kogu tõendeid nii kiiresti kui võimalik.
- Hoia originaalfailid alles.
- Kui ohver ei saa tõendeid koguda, palu seda teha usaldusväärsel esindajal.
- Täida mallid samm-sammult.
- Ära redigeeri ega muuda tõendeid.
- Säilita kõik ühes kaustas või ümbrikus.
- Kontrolli kontrollnimekirja enne kaebuse esitamist.

Annex G: Digital Wizard (screenshots and link)

ANNEX G — Digital Wizard (Prototype)

1. What the Digital Wizard is

The Digital Wizard is a mobile-friendly reporting tool developed within WP2 of the COMBATHATE project to support the easy, guided and accessible reporting of hate speech and hate crimes against people with mental and intellectual disabilities. It translates the paper-based icon form and proxy reporting logic into a step-by-step digital journey.

2. How the Digital Wizard works (user journey)

The Wizard follows a clear flow based on simple questions and visual choices:

- Start screen: clear purpose and 'START' button.
- WHO: victim name, reporter/proxy name and relationship; consent checkbox; reason field if the person cannot sign.
- WHAT: incident type selection via icons (e.g., insults, online hate, physical violence, discrimination, bullying/harassment, refusal of service, other).
- WHERE: location selection via icons (public transport/street, school/university, office/public service, online, home/neighbourhood).
- WHEN: date and time fields plus a short 'Notes/Other important information' box.
- Submit/confirmation: the user submits and receives confirmation that the report was received.

3. Accessibility and inclusion features

The Digital Wizard is designed according to Easy-to-Read and accessibility principles: short text, one action per screen, high-contrast layout, icons supporting comprehension, and suitability for assisted completion by guardians or support staff.

4. Testing and validation

The Digital Wizard was tested during the WP2 development phase through simulated scenarios and role-play exercises (approximately 9 users, across partners). In the absence of real-life incidents during the testing period, simulations were used to verify clarity, usability, and understanding of the steps. Feedback informed minor improvements to wording and flow.

5. Access link (prototype)

The Digital Wizard prototype is available at:
